

Cost Breakdown for Traditional Faxing

For those who are holding onto their legacy fax machine, examining the true costs can be quite eye-opening.

See below for details on the common costs associated with legacy faxes. Then consider the costs of cloud-based faxes. Reduction in costs, coupled with the multiple benefits, including convenience, environmental consciousness, and 30-day fax back-up, makes the switch to a virtual environment a compelling consideration for any size business.

Traditional Fax Machine (Year One):

- Fax machine: \$200
- Supplies (paper, toner, etc.): \$75
- Maintenance (\$25/ month): \$300
- Phone line: (\$25/month) \$300, plus long-distance charges

Projected Total: \$875 (\$72.92/monthly)

Virtual Faxing Costs:

Projected Total: \$143.88 (\$11.99/month)

Projected first year savings by moving to the cloud: **\$731.12 (\$60.93/month)**
